STRONGEST ZINK, LONGER LIFE!!!

Key Features of TRG Roofing Sheet

- | | |
|---|---|
| Good corrosion resistance ★ | ★ Green environmental friendliness |
| High hardness and wear resistance ★ | ★ Good formability and high surface quality |
| Excellent performance and easy processing ★ | ★ Fatigue resistance, High-Temperature Strength |
| Super cost-effective ★ | |

USAGE: Used widely across various Civil Construction needs like Roofing, Cladding and Fencing

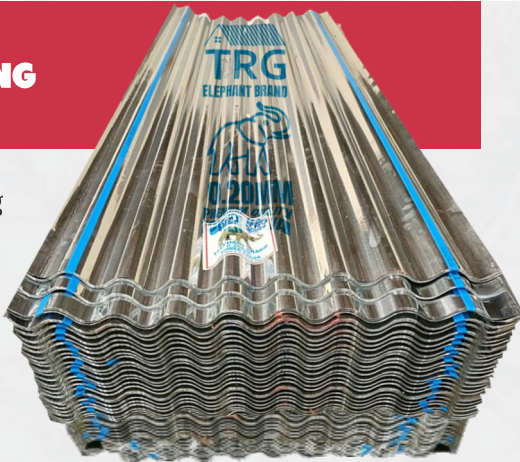

Benefits of TRG Roofing Sheets

- ★ The objective is to satisfy consumer expectations of long lasting, good quality steel products at low cost.
- ★ Its provides cost effective solution to corrosion suffered by conventional galvanized steel products (ordinary zink).
- ★ The product is made with new formula of Coating with Enhanced Aluminium Protection that provides cross sectional edge rust protection because of its unique ability of self healing.
- ★ It is an amazing product for roofing applications that last many times longer in the most corrosive environment as it requires little or no maintenance, hence, is an excellent substitute to other conventional coated metals.
- ★ The product is available unpainted, and in assorted oven baked colours.

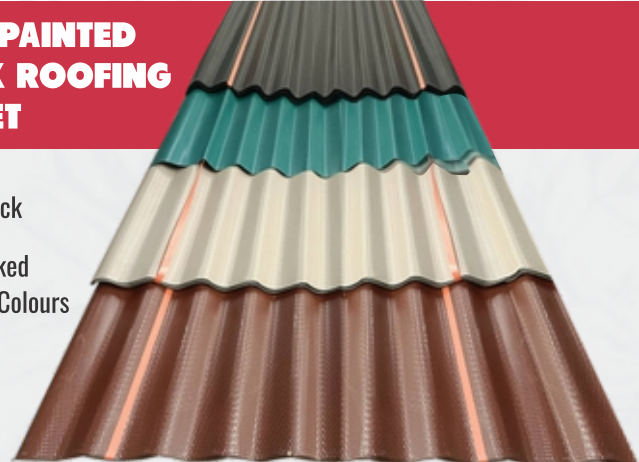

ZINK ROOFING SHEET

- ★ Long Lasting Protection
- ★ Extra Strong

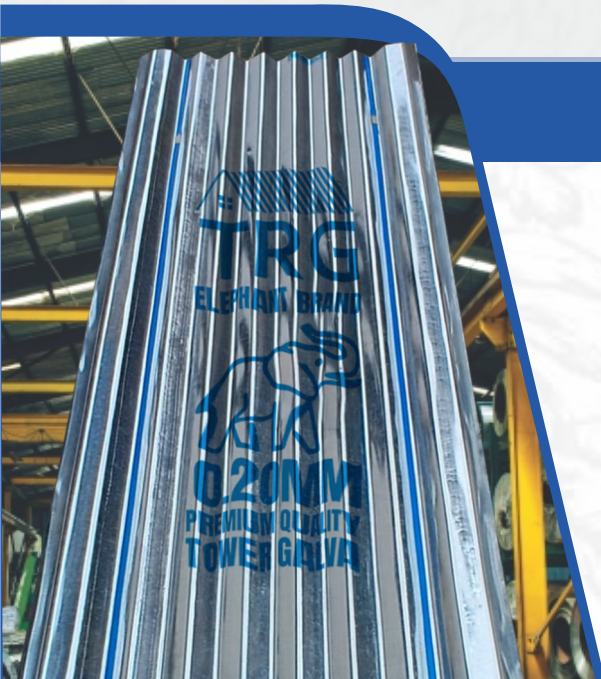

PRE-PAINTED ZINK ROOFING SHEET

- ★ Extra Thick
- ★ Oven Baked Durable Colours
